IAPMO Solicits Public Comments on 2024 UPC, UMC

Ontario, Calif. (Sept. 10, 2021) — The International Association of Plumbing and Mechanical Officials (IAPMO®), developer of the *Uniform Plumbing Code (UPC®)* and *Uniform Mechanical Code (UMC®)*, is calling for public comments on the *Report on Proposals (ROP)* for the 2024 editions of these codes.

The *UPC* Report on Proposals can be obtained at:
<https://codes.iapmo.org/docs/2024/UPC/2021%20UPC%20Report%20on%20Proposals.pdf>

The *UMC* Report on Proposals can be obtained at:
<https://codes.iapmo.org/docs/2024/UMC/2021%20UMC%20Report%20on%20Proposals.pdf>

The public comment form, as well as instructions and background on IAPMO's ANSI-accredited consensus-development process, can be found at https://codes.iapmo.org/form_comments_upc_umc_2024.aspx.

All comments should indicate the exact wording recommended as new, revised or to be deleted, as well as state the problem the recommendation is intended to resolve and the specific reason for making the comment.

No comments will be accepted after the 5 p.m. PST deadline on Jan. 4, 2022. All public comments will be distributed to the technical committee members in March and reviewed at their meetings, May 2-5, 2022, in Anaheim, Calif.

First published by IAPMO in 1945, the *UPC* is developed to govern the installation and inspection of plumbing systems as a means of promoting the public's health, safety and welfare. Later published by IAPMO in 1967, the *UMC* provides the same governance for mechanical (HVAC, combustion, exhaust, refrigeration) systems. Developed and subsequently republished at the conclusion of each three-year code cycle, the *UPC* and *UMC* are designed to provide consumers with plumbing, heating and mechanical systems that meet all applicable standards while, at the same time, allowing latitude for innovation and new technologies.

IAPMO employs a consensus development process accredited by the American National Standards Institute (ANSI), gathering the largest assembly of plumbing and mechanical experts in the world at its annual education and business conference and technical committee meetings, enabling anyone — members and non-members alike — to propose changes to the code.

IAPMO urges its members and other interested parties to get involved in the code development process to ensure effectiveness in preserving the public health, safety and welfare. Installers, plumbing and mechanical officials, the construction industry, engineers and manufacturers all benefit from a cooperative effort in developing codes.

For questions about submitting comments for the *UPC*, contact Enrique Gonzalez, at (909) 230-5535 or enrique.gonzalez@iapmo.org. For questions about submitting comments for the *UMC*, contact Zalmie Hussein, at (909) 218-8122 or zalmie.hussein@iapmo.org.
