

UNIFORM PLUMBING CODE CALL FOR TASK GROUP PARTICIPATION

The International Association of Plumbing and Mechanical Officials are asking for Task Group participation and representation on various issues relating to the 2012 Uniform Plumbing Code. The Uniform Plumbing Code Technical Committee Chair is the appointing authority. [Click here](#) for Task Group form.

The deadline for request for information form is September 18, 2009.

- Correlation Task Group
- Standards Task Group

Correlation Task Group

The scope of this group includes the identification of technical and editorial inconsistencies within the 2009 Uniform Plumbing Code. In order to provide consistency and correlation, the inconsistencies will be identified and recommended as proposed changes or Tentative Interim Amendments for immediate action. A shared understanding of technical and editorial correlation is necessary for the successful implementation of the code.

Standards Task Group

The scope of this group includes adding cross-references to Table 14-1 Index of the 2009 Uniform Plumbing Code to indicate where code sections of each standard are referenced and to update the format of standards based on materials and products.

Meeting notice will be posted on the IAPMO website at www.iapmo.org

Staff contact for each task group:

Matt Sigler, Staff Liaison UPC
