IAPMO to Seek Public Comments for 2015 Edition  
of *Green Plumbing and Mechanical Code Supplement*

Ontario, Calif. (Sept. 29, 2014) – The International Association of Plumbing and Mechanical Officials (IAPMO), publisher of the *Green Plumbing and Mechanical Code Supplement (GPMCS)*, soon will open the 45-day public comment period for the 2015 edition of the *GPMCS*.

The public comment process will open Oct. 10 and run through Nov. 24. To download a copy of the proposed changes that the Green Technical Committee approved at its August 2014 meeting, as well as the comment form, please visit [www.iapmogreen.org/publiccomment](http://www.iapmogreen.org/publiccomment). The public review process will be open to IAPMO members and the public at large. Comments will be sought on the existing supplement, as well as proposed changes being recommended by the IAPMO Green Technical Committee.

The comments will be compiled and serve as the agenda for the Green Technical Committee meeting April 9-10, 2015, in Ontario, Calif. The content of the 2015 edition of the *GPMCS* will be finalized at this meeting and will be published in fall 2015.

IAPMO's *Green Plumbing and Mechanical Code Supplement* is the most comprehensive document ever created to standardize sustainable residential and commercial plumbing and mechanical systems. The 2012 edition is being revised as part of IAPMO's commitment to ensuring plumbing and mechanical systems are safe and sustainable while keeping up with the rapid pace of emerging technology.

The *GPMCS* is not a "greener" version of IAPMO's *Uniform Plumbing Code (UPC®)* or *Uniform Mechanical Code (UMC®)*, but rather a separate document establishing requirements for green building and water efficiency applicable to plumbing and mechanical systems. To purchase the 2012 edition of the *GPMCS*, visit [www.iapmostore.org](http://www.iapmostore.org).
