

**Summary of Substantive Changes
between the 2015 and the 2015^{e1} editions of
ASTM D3034 “Standard Specification for Type PSM Poly(Vinyl Chloride) (PVC)
Sewer Pipe and Fittings”**

Presented to the IAPMO Standards Review Committee on July 11, 2016

General: The change to this standard is editorial and will not have an impact on currently listed products. The editorial change is:

- Removed an incomplete out of place sentence from the text of the standard (see Section 7.3.4).

Section 7.3.4, Spigot Length: Removed an incomplete out of place sentence from the text of the standard as follows:

The minimum distance from the spigot end to the area where the spigot diameter changes due to a socket, branch, or change in angle shall comply with the “C” dimension of Table 4. ~~the actual construction will vary from manufacturer to mand~~
