

**Summary of Substantive Changes  
between the 2013 and the 2014 editions of  
NSF/ANSI 42, “Drinking Water Treatment Units - Aesthetic Effects”**

**Presented to the IAPMO Standards Review Committee on April 13, 2015**

**General:** The changes to this standard should not have an impact on currently listed products. The substantive changes are:

- Removed the definitions and added a reference to NSF/ANSI 330 (see Section 3).
- Removed the electrical safety and operating requirement which was contradictory to the following disclaimer in the standard “... Provisions for mechanical and electrical safety have not been included in this Standard because governmental agencies or other national standards-setting organizations provide safety requirements” (see Section 6).

Section 3, Definitions: Removed the definitions and added a reference to NSF/ANSI 330 as follows:  
[Terms used in this Standard that have a specific technical meaning are defined in NSF/ANSI 330.](#)

Section 6, Minimum performance requirements: Removed the electrical safety and operating requirement as follows:

~~6.6 Electrical safety and operation~~

~~Electrical controls and components of the system shall comply with the requirements of the National Electrical Code, or an equivalent where appropriate.~~
