IAPMO Extends Deadline for Technical Committee Member Applicants

Ontario, Calif. (Feb. 8, 2019) — The International Association of Plumbing and Mechanical Officials (IAPMO®) has extended the deadline for volunteers wishing to participate on the technical committee working toward the development of the 2021 edition of the *Uniform Swimming Pool, Spa and Hot Tub Code (USPSHTC)*. **The deadline to submit an application is now Feb. 28.**

The *USPSHTC* Technical Committee seeks applicants in the following categories: Manufacturer, User, Installer/Maintainer, Labor, Research/Standards/Testing Laboratory, Enforcing Authority, and Consumer. This committee is assembled in accordance with the Regulations Governing Consensus Development of the *USPSHTC* and the Guide for the Conduct of Participants in the IAPMO Codes and Standards Development Process. These documents may be viewed at IAPMO's Code Development Web page: <http://codes.iapmo.org/home.aspx?code=USPSHTC>. Within them, prospective technical committee participants will find information on the scope and general guidelines for conduct of these committees.

IAPMO first adopted the *USPSHTC* in September 1976. The provisions of this code apply to the erection, installation, alteration, repair, relocation, replacement, addition to, use, or maintenance of swimming pool, spa and hot tub systems. This code is produced using a consensus process accredited by ANSI and will be self-designated as an American National Standard upon completion, as IAPMO is an ANSI Audited Designator.

Anyone interested in serving on this committee can complete the application online at the Code Development webpage: http://forms.iapmo.org/iapmo/committee/app_tech_committee.aspx

For specific information about the *Uniform Swimming Pool, Spa and Hot Tub Code* Technical Committee, please contact Taylor Costea at (909) 218-8126 or e-mail your question to taylor.costea@iapmo.org.
