

**Summary of Substantive Changes  
between the updates dated January 31, 2013 and May 31, 2013 of  
UL 1081, "Swimming Pool Pumps, Filters, and Chlorinators"  
(6<sup>th</sup> edition, dated January 29, 2008)**

**Presented to the IAPMO Standards Review Committee on July 8, 2013**

**General:** Changes to this standard may have an impact on currently listed products. The major change is:

- Added text to include in the instruction manual for storable pool pumps (see Section 52.5)

Section 52.5: Added text that is required to be part of an instruction manual for storable pool pumps as follows:

*8) (For storable pool pumps) CAUTION – To reduce the risk of electric shock the pool must be installed no closer than 6 feet (1.8 m) from any electrical outlet. Do not place portable appliances closer than 5 feet (1.5 m) from the pool.*
