IAPMO and WPC to present International Emerging Technology Symposium in Chicago

Ontario, Calif. (Jan. 31, 2008) — The International Association of Plumbing and Mechanical Officials (IAPMO) will co-convene with the World Plumbing Counsel (WPC) an International Emerging Technology Symposium, Aug. 19-20, at the O'Hare Marriott in Chicago.

The timely event is will allow participants to learn how manufacturing, engineering and trade industries have found solutions to international regulatory developments on some of the following topics:

- Water, Sanitation and Health
- Water and Energy Efficiency
- Water Reuse
- Solar and Other Renewable Energies
- Water Quality
- Fat, Oil and Grease Discharges

The symposium will be recorded by a professional company in front of a live audience. Once recorded, a "Webinar" will be produced for event sponsors to make available (via the Internet) to their respective members, customers and the groups and individuals they serve.

"This symposium represents an exciting opportunity to highlight how our industry creates and adapts to emerging technologies through the use of a vital emerging technology: the Internet," said IAPMO Executive Director GP Russ Chaney. "The event promises to be tremendously informative, as we trust a great many unique organizations will seize the opportunity by providing their most highly-qualified experts as presenters and panelists."

"We have kept the cost of registration low at \$295 for both days (includes breakfast, lunch and afternoon snack) in order to encourage international participation," according to Maria Sol Alba, IAPMO Training Client Services Supervisor. "Hotel reservations should be made directly with the Marriott by mentioning the IAPMO event with a special room fee is \$129 per night."

For sponsorship opportunities and/or information on participating in the event, please contact Maria Sol Alba at (708) 995-3005 or Career.Services@iapmo.org.
