IAPMO ES Reports Recognized by City of Los Angeles

Ontario, Calif. (Oct. 21, 2008) — The City of Los Angeles Department of Building and Safety places in IAPMO Evaluation Service Reports the same trust it gives those produced by any other third party report provider.

According to officials within the department, manufacturers may now use their IAPMO ES Reports to apply for a Los Angeles Research Report at the same level of validity of other nationally recognized code agencies. The City of Los Angeles continues to enjoy a long-term trust in the product evaluation services provided by IAPMO, according to officials, who appreciate how IAPMO has grown with the city of Los Angeles over the last 80 years.

GP Russ Chaney, executive director for IAPMO, said: "IAPMO and I have the greatest respect for the important job done by the staff of the City of Los Angeles Department of Building and Safety. It is our goal to play a small part in their important work to ensure the building products evaluated meet all of the standards demanded by the city. We are extremely pleased to be recognized for our expertise and certifications to perform these services."
