IAPMO Seeks Proposals for 2015 Edition  
of *Green Plumbing and Mechanical Code Supplement*

Ontario, Calif. (May 5, 2014) – The International Association of Plumbing and Mechanical Officials (IAPMO), publisher of the *Green Plumbing and Mechanical Code Supplement (GPMCS)*, is calling for code proposals toward the 2015 edition of the *GPMCS*.

The code proposal form and proposal instructions may be found at [www.iapmogreen.org](http://www.iapmogreen.org). All proposals recommending new text, revised text or the deletion of text must be written in legislative format and clearly state the reason behind the recommendation.

No proposal can be accepted after the submittal deadline of 5 p.m. CDT on June 18, 2014.

The *GPMCS* is the most comprehensive document ever created to standardize sustainable residential and commercial plumbing and mechanical systems. The 2012 edition is being revised as part of IAPMO's commitment to ensuring plumbing and mechanical systems are safe and sustainable while keeping up with the rapid pace of emerging technology.

The *GPMCS* is not a "greener" version of IAPMO's *Uniform Plumbing Code (UPC®)* or *Uniform Mechanical Code (UMC®)*, but rather a separate document establishing requirements for green building and water efficiency applicable to plumbing and mechanical systems. To purchase the 2012 edition of the *GPMCS*, visit [www.iapmostore.org](http://www.iapmostore.org).

If you have questions about submitting a proposal for the *GPMCS*, please contact Maria Bazan at (708) 995-3007 or by email at [maria.bazan@iapmo.org](mailto:maria.bazan@iapmo.org).
