

**Summary of Substantive Changes
between the 2015 and the 2016 editions of
ASTM A74, "Cast Iron Soil Pipe and Fittings"**

Presented to the IAPMO Standards Review Committee on March 11, 2016

General: General: The changes to the normative sections of this standard are editorial and should not have an impact on currently listed products. The editorial changes are as follows:

- Changed the number "7" to the word "seven" (see Section 6.1)
- Changed the method of indicating units from "4 hours" to "4 h" (See section 10.2.3)
- Changed the reference to tables from "Tables 1 and 2" to "Table 1 and Table 2"(see Section 12.2)
- Corrected a metric conversion of 10.5 in from 260 to 267mm (see Table 14)
