

**Summary of Substantive Changes  
between the 2014e1 and 2014e2 editions of  
ASTM D4101 "Polypropylene Injection and Extrusion Materials"**

**Presented to the IAPMO Standards Review Committee on March 13, 2017**

**General:** The editorial change to this standard will not have an impact on currently listed products. The editorial change is a correction of referenced standards. The corrections were from SAE J1885 to SAE J2412 and SAE J1960 to SAE J2527.
